

Office of Disaster Assistance and Petroleum Management (ODAPM)

The Office of Disaster Assistance and Petroleum Management (ODAPM) endeavors to assist local government agencies in the recruitment, development of applications, and implementation of federally funded grant programs. Additionally, the ODAPM strives to ensure compliance with federal requirements as set forth by federal grantors. The ODAPM continues to work closely with local agencies to ensure that all fixed assets, including structures and contents, are accounted for, and adequately insured. The ODAPM continuously strives to ensure the adequate and cost-effective supply of petroleum products for the territory including the development and maintenance of efficient ASG Fuel Facility Plants and Operations in compliance with quality, safety and security standards.

THE OFFICE OF DISASTER ASSISTANCE AND PETROLEUM MANAGEMENT (ODAPM)

HAZARD MITIGATION

The Office of Disaster Assistance and Petroleum Management strives to provide a comprehensive mitigation strategy for prioritizing projects, programs, and activities that aim to save lives and reduce losses from the impacts of natural disasters. The Hazard Mitigation Program is based on a partnership with The Federal Emergency Management Agency (FEMA) for mitigation planning process. This plan ensures federal assistance to the people of American Samoa following future significant disasters, and allow the American Samoa Government to compete for federal mitigation program assistance annually.

PUBLIC ASSISTANCE

The Federal Emergency Management Agency's (FEMA) Public Assistance Program provides aid in the wake of a major disaster to our local government to help communities in our recovery efforts. The Public Assistance Program (PA) provides federal disaster grant assistance for debris removal, emergency protective measures, and the repair, replacement, or restoration of disaster-damaged property. The PA Program is based on a partnership with FEMA, State, and local officials.

THE OFFICE OF DISASTER ASSISTANCE AND PETROLEUM MANAGEMENT (ODAPM)

OFFICE OF PETROLEUM MANAGEMENT AND THE AMERICAN SAMOA PETROLEUM COOPERATIVE

The Office of Petroleum Management (OPM) under the Office of Disaster Assistance and Petroleum Management (ODAPM) in conjunction with the American Samoa Petroleum Cooperative (ASPC), is responsible for the sustained achievement of OPM's mission including the optimal and cost-effective development, operations, and maintenance of ASG Fuel Facilities and Infrastructure of the ASG Fuel Dock and Gataivai and Pago Pago International Airport Fuel Tank Farm and Storage depots.

ASG PROPERTY INSURANCE

The Office of Disaster Assistance and Petroleum Management is responsible to administer and manage in cooperation with the ASG Property Insurance Committee (ASPIC) of Treasury, Procurement, ASTCA, LBJ Hospital and ASCC to solicit and maintain qualified, cost-effective property insurance for insuring ASG fixed assets, structures, and contents funded and required by FEMA. Under ODAPM, ASG's property insurance will be updated and insurance proceeds will go to rebuilding and replacing damaged property.

Serving OUR COMMUNITY

AMERICAN SAMOA COMMUNITY COLLEGE AGRICULTURE, COMMUNITY & NATURAL RESOURCES

Research

ASCC-ACNR currently conducts research in the areas of Horticulture and Entomology. All research is tailored specifically for the environment, economy, and culture of American Samoa and to benefit the health of American Samoa's people and natural resources.

Extension

The Extension program emphasizes the knowledge gained through research and education to create positive change and improve the quality of life for individuals and the community. There are four main programs: 4-H Youth Development, Agriculture, Family and Consumer Sciences, and Forestry.

Instruction

ASCC-ACNR offers post-secondary agricultural-related educational programs. Program offerings include the Associate of Science degree in General Agriculture, Agribusiness, Family and Consumer Sciences, and Natural Resources.

LEGISLATURE OF AMERICAN SAMOA HOUSE OF REPRESENTATIVES

It has been 75 years since the Territory assembled its first representative government with the election of the House of Representatives and the selection of its Senate. As one of the chambers in the bicameral legislature, the House of Representatives or *Maota o Sui* began with as many as 54 members, a village on the island of Tutuila, Aunu'u, and the former Kingdom of Manu'a. After several constitutional conventions, the people settled on its current number of 20 representatives and a delegate-at-large from the island of Swains.

The early members of the *Fono* were men and women with little education that were determined to advance the rights and causes of their people. They managed complex agreements including the Deeds of Cession with the U.S. and helped to protect and perpetuate the Samoan culture – *Le Fa'asamoa*. As it nears the century mark, the House of Representatives owes a debt of gratitude to the men and women who have paved the path for prosperity and success for the Samoan people.

The *Fono* accepts that it did not achieve its success without the support and partnerships of the Independent State of Samoa and its geopolitical ties with other island nations and global cohorts. A great *fa'afetai tele* lava is extended to all who have made our 75-year journey a true triumph.

To the future of the Territory and those with whom we have aligned; the Lord has seen us through our many hardships, and He continues to reward our faithfulness through the progress we have seen in the *Fono* and the American Samoa Government. There is much more He has in store for us and our mission is to ensure that the legacy of those who came before us does not sit idle but is honoured through our good works.

E susulu le lumana'i o Amerika Samoa, ma o le manuia faifaipa a le Atua, o le a tatou manuia ai pea. Faafetai, ma ia faamanoia le Atua i o tatou tagata ma si o tatou motu.

We give thanks to God for His unwavering guidance and blessings upon us. It is by His grace that we have been given the knowledge, the spirit to lead, and the willingness to serve as our forefathers have for the past 75 Years. In this past year we have celebrated the theme "75 Years of Wisdom and Seeking Truth for American Samoa," and it is our prayer that he continues to watch over this Legislature and it's leaders, as we continue to strive as civil servants for the people of American Samoa.

To the citizens of our beloved Territory. I want to express my deepest gratitude for your continued support, prayers, and thoughts. It is through your faith and trust that we, as lawmakers, are able to represent every district with a sense of duty and commitment. Your steadfast belief in us encourages us to move forward with confidence, knowing that our decisions are made with the collective well-being of our islands in mind.

To our brother's and sister's of the Independent State of Samoa, Malo le tapua'i. Faafetai le faaeaea.

As the 38th Legislature of American Samoa comes to an end, we are honored to have served at a time when we celebrated the 75th Anniversary of the Fono's establishment. This is not only a milestone for our legislative body but a testament to the strength and unity of our people.

In closing, I offer a special word of encouragement to the future leaders of American Samoa. May you carry forward the legacy of our Senate with the same dedication and integrity that has guided us for these many years.

God Bless American Samoa and God Bless the people of American Samoa.

O LE FONO FAITULAFONO O AMERIKA SAMOA
